

# MIFILL HYDRO

Bring back moisture,

*And brightens your skin !*

# HYALURONIC ACID & CROSS-LINKED HYALURONIC ACID

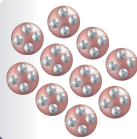

*Hyaluronic Acid (HA)* is a glycosaminoglycan, a vital natural substance of skin cellular matrix that has a unique capacity to bind and retain moisture. HA can hold up to 1,000 times its molecular weight in water, maintains and provides *hydration* and *moisture* to the skin.

The natural aging process and harmful exposure such as UV, pollution, oxidation, etc. will decrease its amount in the skin.

A Cross-Linked HA resulting more *long lasting duration* to its function, and also give benefit to volumize the skin, fill in lines & wrinkles, build protection, and scars & uneven texture improvement.

MIFILL HYDRO

HA

## PDNA from SALMON DNA

*PolyNucleotide (PDNA)* extracted from *Salmon Sperm*, has been known widely as advanced solution for skin damage repairment and restructuring.

Salmon DNA has proven to be *the most compatible* with humans, and it extracted from Salmon sperm specifically because it has the *highest purity level*.

PDNA has strong *wound healing* properties, it supports blood vessel growth, and it stimulates skin to produce more HA and collagen, thus gain hydration and elasticity.

## MANNITOL

Mannitol is a type of sugar-alcohol that used in various medical purposes for treat diseases & illness. By adding Mannitol to HA, it improves the rheological properties of HA such as *viscosity and elasticity*, resulting long lasting duration & better performance. Mannitol also *reduces swelling & edema* due to osmotic pressure.

*Dramatically increase the level of skin hydration  
 Skin booster for elasticity & rejuvenation  
 Regain a youthful radiant appearance*

## INDICATIONS

Skin Hydration, Skin Booster, Skin Volumising & Rejuvenation  
 Repair Skin Damage, Skin Restructuring, Improves Texture  
 Reduces Scars, Fine Lines & Superficial – Mid Wrinkles  
 Brightening & Smooth Complexion  
 Anti - Aging

## APPLICATION

Applied to mid – deep dermis layer  
 (2.5mm – 6mm depends on the area treated)  
 Can be applied with MTS, Roller, and any Injector  
 3 to 5 sessions, every 10 – 15 days  
 Repeat after 6 months, or whenever necessary

**HYDRO SHINE**

Non Cross-Linked HA 20mg/ml  
 Mannitol

3.0ml x 3syringes

**HYDRO SHINE PLUS**

Cross-Linked HA 20mg/ml  
 Mannitol

3.0ml x 3syringes

**PDNA HYDRO**

Cross-Linked HA 20mg/ml  
 PDNA (Sodium DNA) 2mg/ml

2.2ml x 3syringes
